

EGG TRANSPORTATION EQUIPMENT

鸡蛋传输设备

- 中央输蛋设备具备强大的收集能力，可以做到无障碍运行，可以在不同鸡舍之间同时收集和传输鸡蛋。
 - 输送链的运行速度可根据设备的层数定义，在此基础上来降低破蛋率。
 - 输送链的长度及坡度可根据禽舍情况进行定制。
 - 可以实现曲线输送和上下坡式输送方式。
- Central egg conveyor system with powerful collection ability makes it feasible to collect and conveyer eggs between different houses with barrier-free operation.
- The delivery speed of conveying chain can be decided by the cage tier number in order to achieve the lowest broken egg rate.
- The length and slope of the conveying chain can be customized according to the different situation of chicken house.
- Curved delivery and sloped delivery can be realized easily.
